
Microphotonic Waveguide Process Development Chun Min Huang

fabrication of microphotonic waveguide components on silicon - keywords inductively coupled plasma etching, integrated optics, microphotonic, optical device fabrication, optical losses, silicon-on-insulator (soi) waveguides, waveguide bends abstract this thesis reports on the development of silicon-based microphotonic waveguide components, which are targeted in future optical telecommunication networks. **development of multi-step processing in silicon-on ...** - development of multi-step processing in soi for optical waveguide applications the double-masking process is capable of achieving accurate mask patterning for both etch steps, since the ... **fabrication of microphotonic waveguide components on silicon** - this thesis reports on the development of silicon-based microphotonic waveguide components, which are targeted in future optical telecommunication networks. the aim of the work was to develop the fabrication of silicon microphotonic using standard clean room processes which enable high volume production. the waveguide processing was done using ... **fabrication and testing of planar chalcogenide waveguide ...** - fabrication and testing of planar chalcogenide waveguide integrated microfluidic sensor juejun hu, vladimir tarasov, anu agarwal, and lionel kimerling microphotonic center, massachusetts institute of technology anu@mit nathan carlie, laetitia petit, and kathleen richardson advanced materials research laboratory, clemson university **microphotonic silicon waveguide components - university** - aalto, timo. microphotonic silicon waveguide components. espoo 2004. vtt publications 553. 78 p. + app. 73 p. keywords silicon microphotonic, integrated optics, silicon-on-insulator waveguides, soi waveguides, waveguide bends, thermo-optical switching, multi-step patterning, polarisation maintaining fibers, polarisation extinction ratio abstract **fiber to waveguide couplers for silicon photonics** - fiber to waveguide couplers for silicon photonics by trisha m. montalbo submitted to the department of materials science and engineering on august 13, 2004, in partial fulfillment of the requirements for the degree of master of science in materials science and engineering abstract **exploration of waveguide fabrication from thermally ...** - exploration of waveguide fabrication from thermally evaporated ge-sb-s glass films juejun hu a, vladimir tarasov a, nathan carlie b, laetitia petit b, anu agarwal a,*, kathleen richardson b, lionel kimerling a a microphotonic center, massachusetts institute of technology, rm 13-4126, 77 mass avenue, cambridge, ma 02139, usa b advanced materials research laboratory, clemson university, usa **silicon photonics: waveguide modulators and detectors** - free carrier concentration variation in a silicon waveguide: the electronic structure has to be integrated in an optical waveguide rib waveguides are required (in strip waveguide it is not possible to have the electrical contacts) doped silicon and metal are responsible for large optical loss **liquid crystal waveguides: new devices enabled by >1000 ...** - liquid crystal waveguides: new devices enabled by >1000 waves of optical phase control scott r. davis ... remote sensing, cold-atom optics, industrial process analysis, and many more. in response to this need a diverse array of technologies have been investigated and developed over the past ... arrays have been in development for more than ... **silicon photonics: challenges and future** - report documentation page form approved omb no. 0704-0188 public reporting burden for the collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and **232 ieee journal of selected topics in quantum electronics ...** - microphotonic devices based on silicon ... this is a great advantage in the development of the si wire waveguide system. ... a fiber and to improve the fabrication process for optical wave- **design of an arrayed waveguide grating for photonic ...** - arrayed waveguide gratings are useful structures for the implementation of wavelength division multiplexing; however, in their current form, they are too large to be made cheaply or to use as an integrated component. this paper discusses the work of the mit microphotonic center, explains the operation of an arrayed waveguide grating, and **the electronic materials research group at mit** - ge and gesi microphotonic platform material design and device fabrication for integrated photonics including photon detectors and modulators grow epitaxial ge with small amounts of si electro-absorption modulator fabrication process development realize a scalable integrated quantum photonic interconnect **integration of silicon photonics in a bulk cmos memory flow** - integration of silicon photonics in a bulk cmos memory flow roy meade, ofer tehar-zahav1, ... working process development kit (pdk) has been established. ... at the expense of higher waveguide attenuation and increased process integration challenges. existing implants, dopant activation, and ... **study of waveguide crosstalk in silicon photonics ...** - study of waveguide crosstalk in silicon photonics integrated circuits. valentina donzella 1*, sahba talebi fard 1 and lukas chrostowski 1 1department of electrical and computer engineering, university of british columbia, canada *corresponding author: valedonz@ece.ubc abstract
